**Provinces Preparedness and Response**

|                    |  |
|--------------------|--|
| <b>Balochistan</b> | <ul style="list-style-type: none"> <li>• 199 newly arrived individuals screened and quarantined at Taftan border in last 24 hours.</li> <li>• FELTP fellows trained 15 staff members at PCSIR Quetta.</li> </ul>   |
| <b>Punjab</b>      | <ul style="list-style-type: none"> <li>• Training of Police Line Staff Lahore on IPC by PDSRU staff conducted.</li> </ul>  |
| <b>KP &amp; TD</b> | <ul style="list-style-type: none"> <li>• Team under the lead of Director Public Health, DGHS office mobilised for DI Khan to facilitate district administration and health authorities for quarantine, isolation and investigation protocol.</li> </ul>  |
| <b>AJK</b>         | <ul style="list-style-type: none"> <li>• Chest Diseases General Hospital (CDGH) Hill Chamankot and New City Hospital Mirpur (bed capacity of 50 each) have been designated as back-up hospitals for management of any suspected cases reported.</li> <li>• Isolation rooms/wards have been established in AIMS, SKBZ Hospital/CMH Muzaffarabad and Rawalakot.</li> </ul> |
| <b>GB</b>          | <ul style="list-style-type: none"> <li>• 7 isolation hospitals established with 46 rooms while 96 isolation rooms established in other hospitals including CMHs and other private hospitals. Total 137 isolation rooms available.</li> </ul>   |

**Risk Communication:**

1. Clean your hands regularly with an alcohol-based hand rub, or wash them with soap.
2. Clean surfaces regularly with recommended disinfectants (70% Ethyl Alcohol or 0.5% bleach solution).
3. Avoid touching your eyes, nose and mouth with contaminated hands.
4. Practice respiratory hygiene by coughing or sneezing into a bent elbow or tissue and then immediately dispose off.
5. Wear a medical/surgical mask if you have respiratory symptoms and perform hand hygiene after disposing off of the mask.
6. Maintain a minimum of mandatory one meter distance from individuals with respiratory symptoms.
7. Healthcare workers are required to select and use appropriate PPE.
8. **Administrative controls** include ensuring the availability of IPC resources such as appropriate infrastructure, clear IPC policies, access to lab testing, triage and patient placement, adequate staff and training of staff.
9. **Environmental and engineering controls** aim at reducing the spread of pathogens and reducing the contamination of surfaces and inanimate objects.
